Watercolor is the ideal medium for interpreting and expressing the complex subtleties of light. Its transparency makes it uniquely suited to convey luminous surfaces and veils of atmosphere. With it you can create pale washes as well as dark, powerful and moody images. It is a lovely and fluid language in which to express any idea or image. Paul's focus for this three-day workshop will be to guide you through a painting from beginning to end, as you paint together a stunning image of dramatic light and luminosity.

A prolific artist and ambitious world traveler, Paul Jackson is one of today's most versatile and visible contemporary watercolorists.

Jackson frequently serves as judge for national and international art competitions. In 2009 he served as the invited juror for the American Watercolor Society's 142nd annual international exhibition. Whether his subject is landscape, cityscape, portrait, architecture, still life or abstract, Paul captivates his audience with genuine emotion, intensity and finesse that energize each of his creations. He is an eagle scout, an adventurous spirit and travels the earth in search of visual inspiration.

Jackson is the author of ***Painting Spectacular Light Effects in Watercolor & The Wandering Watercolorist.***
